COMPONENTI

Esempio di una Composizione Libelle (vedi immagine in copertina):

n° 2- Montanti Terminali h 2680 mm

n° 1 - Montanti Centrali h 2680 mm

n° 8 - Mensole

n° 16 - Supporti Fissi o Snodabili in Ottone per Mensole

Ferramenta:

Per Montanti h < 3760 mm

n° 01 - Regolabile Girevole con Punta (a soffitto)

n° 01 - Regolabile Girevole con Gomma (a pavimento)

n° 02 - Vite Testa Bombata Ottonata a Brugola M5 x 20 mm

Per Montanti h < 3760 mm

n° 02 - Regolabile Girevole con Punta

n° 01 - Regolabile Girevole con Gomma

n° 02 - Vite Testa Bombata Ottonata Brugola M5 x 20 mm

n° 02 - Dischi in Ottone ϕ 57 mm sp. 5 mm

n° 02 - Viti Testa Svasata M6 x 10 mm

n° 06 - Fisher per Muro 6 mm x 30

n° 03 - Fisher per Cartongesso

n° 06 - Viti Mordenti legno ϕ 5 x 40 Ottonata

Per Mensola

n° 04 - Viti Testa Cilindrica a Brugola M5 x 25mm

n° 02 - Viti Testa Svasata a Brugola M5 x 40 mm o M4 x 40 mm

COMPONENTS

Example of Libelle Composition (view image on the cover) :

n° 2- Terminal Upright Element h 2680 mm

n° 1 - Central Upright Element h 2680 mm

n° 8 - Shelves

n° 16 - Brass Static / Jointed Support for the Shelves

Hardware:

For Terminal/Central Upright Element h < 3760 mm

n° 01 - Adjustable Revolving Pin with Point (ceiling)

n° 01 - Adjustable Revolving Pin with Rubber (floor)

n° 02 - Allen Brass screw M5 x 20 mm, rounded head

For Terminal/Central Upright Element h > 3760 mm

n° 02 - Adjustable Revolving Pin with Point (ceiling)

n° 01 - Adjustable Revolving Pin with Rubber (floor)

n° 02 - Allen Brass screw M5 x 20 mm, rounded head

n° 02 - Brass Disk ϕ 57 mm sp. 5 mm

n° 02 - Allen Screw M6 x 10 mm, countersunk head

n° 06 - Wall Fisher 6 mm x 30

n° 03 - Drywall Fisher

n° 06 - Brass Wood Screw ϕ 5 x 40

For Shelf

n° 04 - Allen Cap Screw M5 x 25mm

n° 02 - Allen Screw M5 x 40 mm or M4 x 40 mm, countersunk head

1

Avvitare i supporti in ottone sulle mensole facendo attenzione che i fori di entrambi i componenti coincidano. (Figura 1, 1a, 1b, 1c, 1d)

Screw the brass supports to the shelves ensuring that the holes of both are corresponding. (Picture 1, 1a, 1b, 1c, 1d)

Prendere visione del disegno finale della composizione e dell'altezza del soffitto dove verrà installata la Libreria. Se l'altezza del soffitto supera i 376 cm sostituire i perni regolabili a soffitto e a pavimento come da specifiche (vedi pag. 24/25) Se l'altezza non supera il limite mantenere i perni già montati sul montante posizionando quello con la ventosa in gomma a pavimento e orientando quello con la punta a soffitto. Posizionare il montante a terra e regolare lo stesso secondo l'altezza del soffitto, infine ruotare i perni ottonati regolabili per mettere "in tensione" la struttura.

(Figura 2 [<376] Figura 3,3a,3b,3c [>376])

Check the final drawing of the composition and the height of ceiling where the bookcase will be positioned. If the height of the ceiling is more than 376 cm replace the adjustable pin for ceiling and floor as specified. If the height doesn't exceed the limit of 358 cm, keep the already assembled pin of the upright element, positioning the one with the suction cup on the floor and the one with the point to the ceiling. Adjust the element according to the ceiling height and turn the brass pins until the structure will be stable.

(Picture 2 [<376] Picture 3,3a,3b,3c [>376])

Procedere con il fissaggio della prima fila di mensole alla struttura seguendo il disegno della composizione. Dove non sarà prevista la mensola i fori di fissaggio rimarranno a vista e inutilizzati. Una volta fissate tutte le mensole della prima fila procedere con il fissaggio e la regolazione del primo montante Centrale. Fissare le mensole allo stesso e Procedere in questo modo seguendo il disegno fino all'installazione completa della libreria.

(Figura 4, 4a, 4b, 4c, 4d, 4e, 4f, 4g, 4h, 4i, 4j)

Fix the First shelves to the frame following the composition. Where the shelf is not expected as per the drawing the fixing holes will remain visible. Once all the shelves of the first line are fixed, proceed with the fixing and the adjustment of the first central upright element. Fix the shelves to the central element as previously and continue in this way until the installation of the composition is completed.

(Picture 4, 4a, 4b, 4c, 4d, 4e, 4f, 4g, 4h, 4i, 4j)

Montaggio Completato. (Figura 5)

The assembly is completed. (Picture 5)
